

MoDOT Minute – May 27

Hi! This is Sally Oxenhandler with your MoDOT Minute.

To help travelers prepare for the busy highway construction season under way, MoDOT has posted the top 10 work zones to look out for on its web site - modot.org. The 10 work zones were picked based on volume of traffic, amount of work and level of delay. In addition to checking out the top 10 work zones, remember to visit MoDOT's Traveler Information Map before traveling. The map, also located at modot.org, provides information about work zones throughout the state and can help you avoid traffic delays.

The Design-Build Institute of America has given MoDOT its Owner of the Year Award for innovative use of design-build project delivery. The state's three design-build projects are The New I-64 reconstruction project in St. Louis, the kcICON project in Kansas City, and the statewide Safe & Sound bridge improvement program.

That's been your MoDOT Minute. Remember to visit modot.org every Tuesday for new information.
